Welcome to US MASTERBATCH

“US MASTERBATCH JSC is the fastest growing Masterbatch and Compound Manufacturer of high quality in Vietnam.”

US Masterbatch was founded by a group of enthusiastic and talented plastic engineers, with the ambition to build a professional masterbatch and compound manufacturing enterprise, conquering major partners in the region and the world.

Starting from a small-scale factory in Thach That, Hanoi, after more than a decade of operation, US Masterbatch has owned a large-scale factory complex with 04 modern factories, meeting ISO 9001-2015 standards, invested in the most modern machinery and equipment, producing a variety of products and exporting to more than 80 countries around the world.

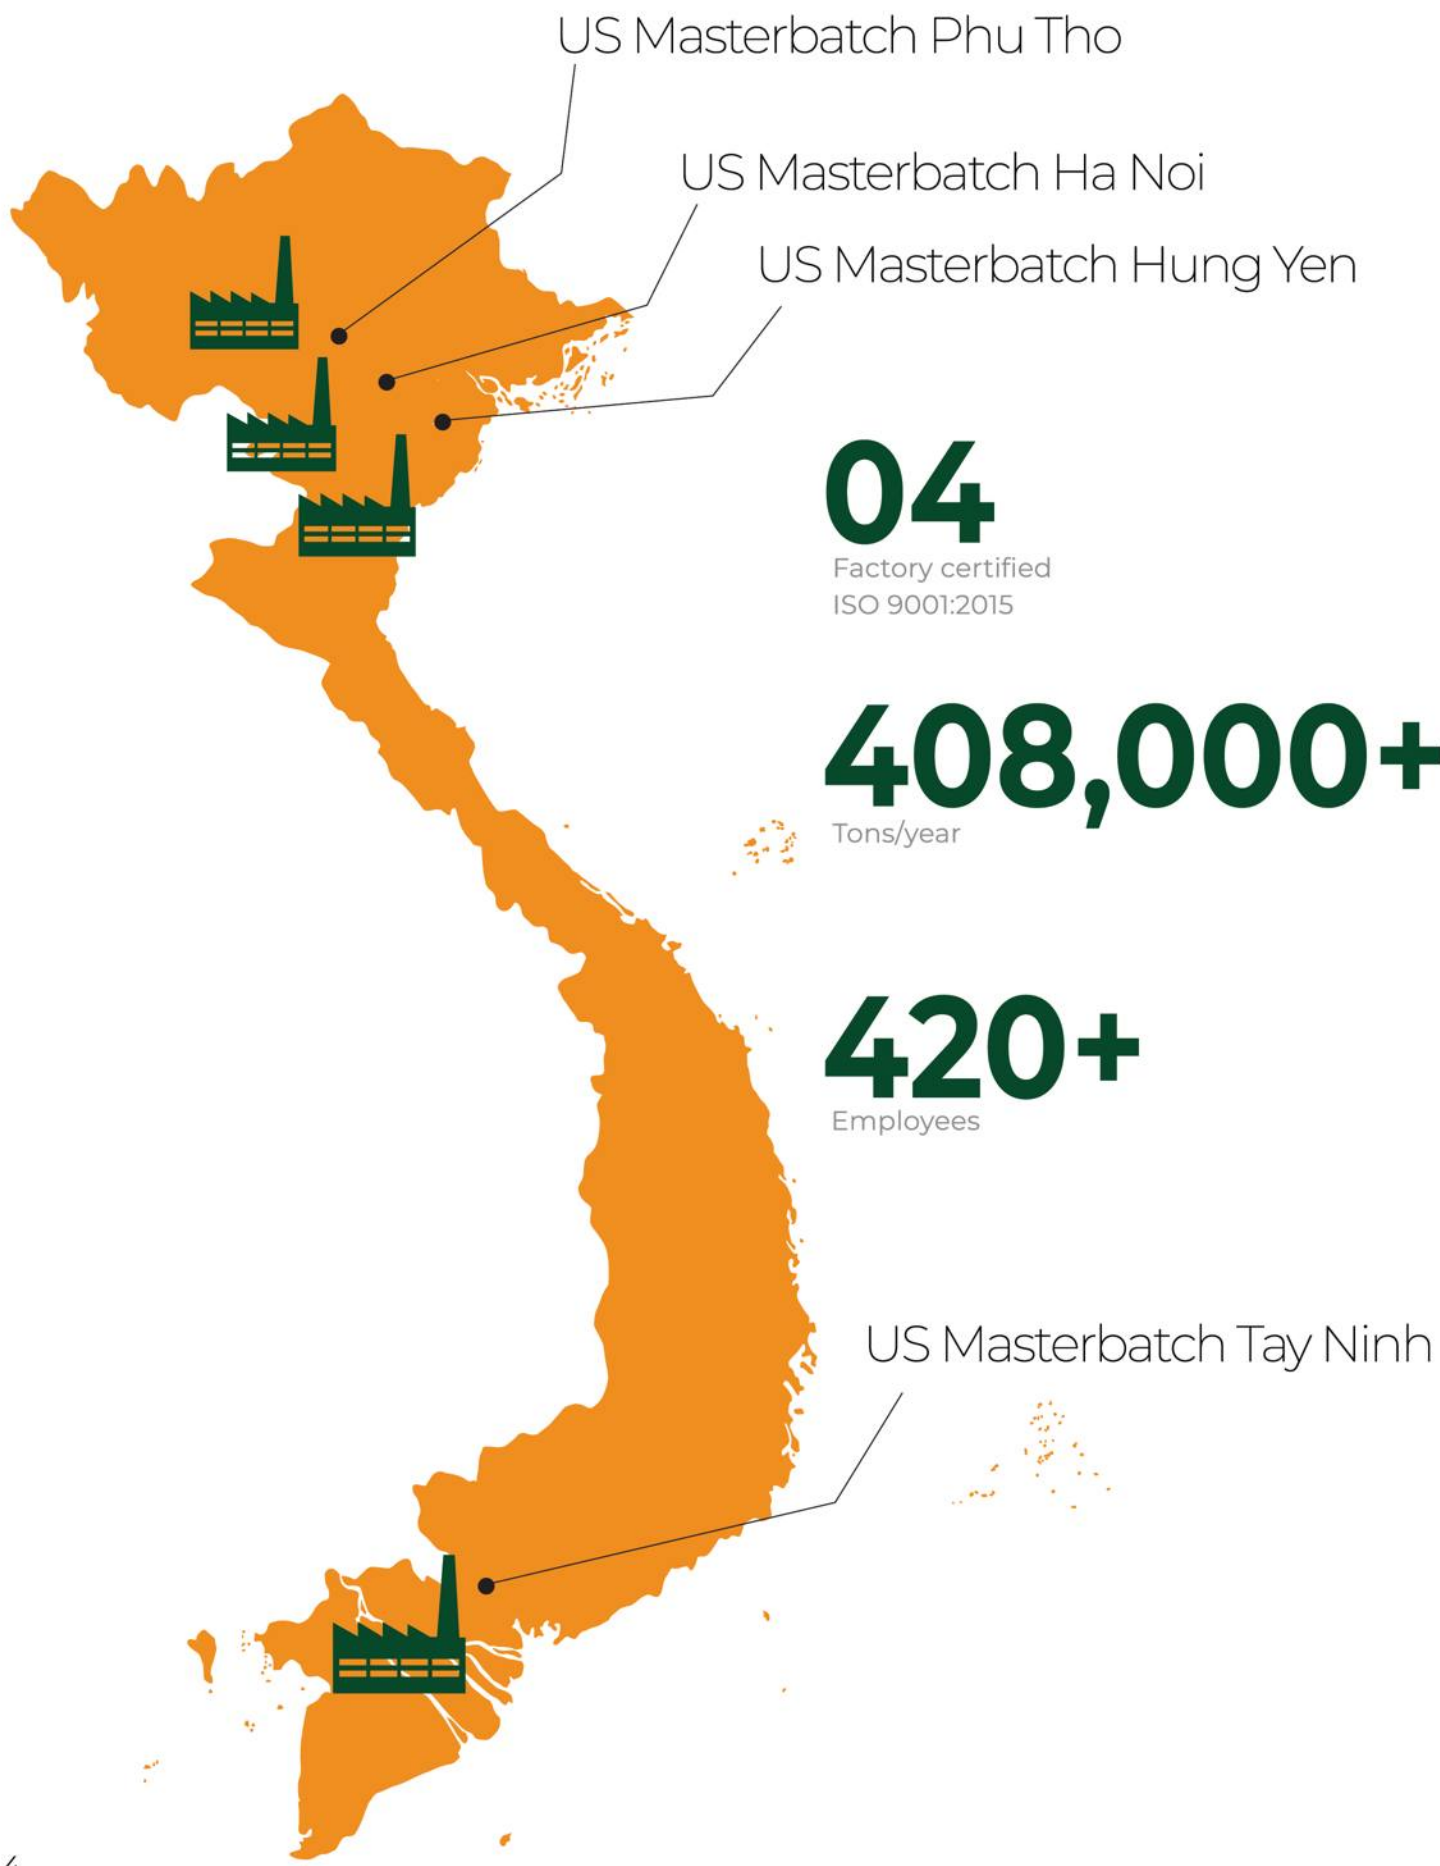

We have a well-trained human resource, with leading professional expertise in the Masterbatch and Compound manufacturing industry. We have always strived to create a professional and fair working environment, inspiring innovation for the development of the next generations.

US MASTERBATCH has been operating in the market for more than 10 years, with a strategic vision from the board of directors and based on long-term goals, we have quickly become the leading masterbatch and compound manufacturer in Vietnam, providing effective solutions for partners, ensuring a solid foundation of cooperation.

We are committed to doing the right thing and doing more, “We Say We Do”, with the real capacity of our business, carrying out responsible activities, harmonizing the interests of customers, employees and the community.

MANUFACTURING SCALE

PRODUCTION LINE

The compounding lines specially designed high speed mixers, fully high end computerized process control systems which ensures consistent product quality, and improved productivity, enabling faster delivery.

Electronically controlled automatic weighing and bagging systems provide accurate weighing and packaging, eliminating waste and facilitating faster packaging.

Advanced dust collection systems using sophisticated German pollution control technology, facilitates avoidance of particulate contamination and ensures a dust-free internal and external environment.

PACKAGING SOLUTION

The great flexibility of US MASTERBATCH's production systems provides the possibility of satisfying any & all customer needs, supplying wooden pallets, 25kg sacks, big bags, boxes with the additionally possibility, on request, of arranging the pallets in advance for external storage.

LABORATORY R&D CENTER

Laboratory R&D Center of US MASTERBATCH is equipped with the most modern machinery and equipment to serve the research and development of new products. This is where our leading experts create new innovative solutions to meet customer requirements and market demand.

Opacity Tester

Data Color Photo Spectrometer

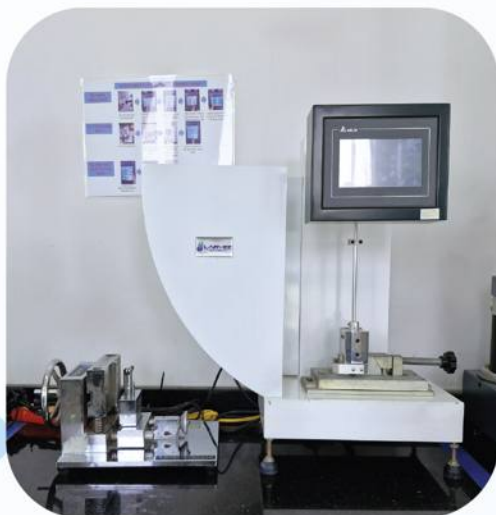

Mastersizer of CaCO₃ Powder

Melt Flow Index Tester

Digital Solid Density Meter

Digital Izod Impact Testing Machine

Tensile Strength & Elongation Tester

Lab Blown Film Machine

MILESTONES

2025 Exported to over 80 countries

2024 Inaugurated new factory in Long An province (now is Tay Ninh province)

2023 Ranked Top 2 in Masterbatch & Compound industry

2022 Inaugurated new factory in Hoa Binh city (now is Phu Tho province)

2020 Inaugurated new factory in Hung Yen province

2016 Establishment year with a small factory in Thach That, Hanoi City

VISION

Become the largest manufacturer and exporter of Masterbatch and Compound products in Vietnam. We own 04 large factories with a capacity of up to 408,000 tons/year, along with an R&D center with the most modern equipment imported from abroad, striving to realize the aspiration of leading position in the industry.

MISSION

Bringing superior products and solutions to customers, maintaining trust in quality, building long-term cooperative relationships, for the benefit of customers and the community.

CORE VALUES

Insightful:

Deep understanding of the market, understanding customer needs, with solid professional knowledge, providing superior products and solutions, saving time and solving customer problems.

Prestige:

Build deep trust from product quality and responsible actions, always put business prestige first in any circumstances.

Professional:

Conduct responsibilities in all cooperative relationships with partners with practical actions, prioritizing in parallel with environmental and public health responsibilities.

OUR SECTORS

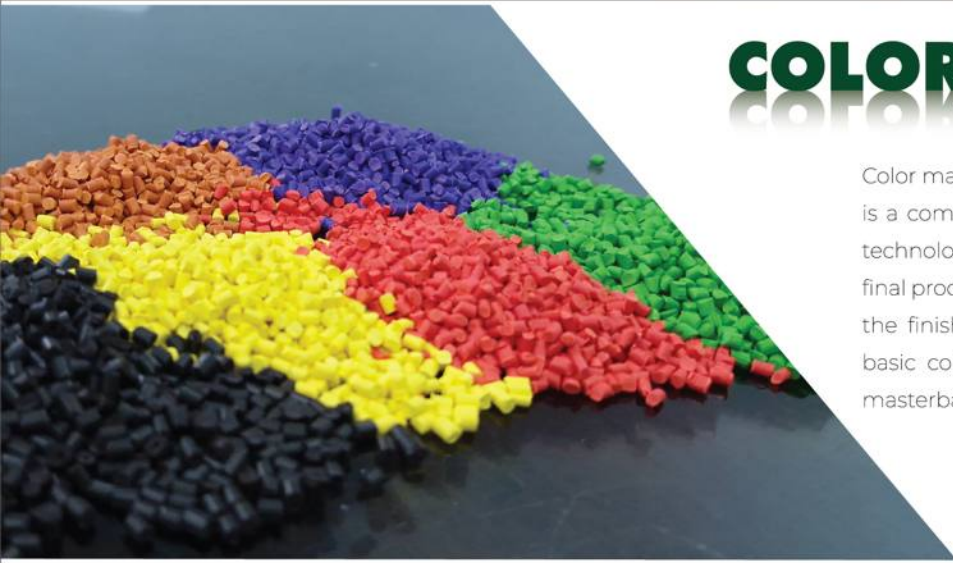

FILLER MASTERBATCH

Filler masterbatch product of **US MASTERBATCH** is the combination of finely ground inorganic minerals, virgin resin as carrier and other additives. It can greatly reduce the cost of finished products.

COLOR MASTERBATCH

Color masterbatch product of **US MASTERBATCH** is a combination of pigments and virgin resin, with superior technology and quality, helping to optimize the color of the final product, saving input material costs when manufacturing the finished product. **US Masterbatch** provides high quality basic color masterbatch and any kind of customized color masterbatch to meet clients' requirements.

ADDITIVE MASTERBATCH

Additive masterbatch product of **US MASTERBATCH** is the combination of functional additives and virgin resin. This product is used to solve problems arising during manufacturing, storing and using finished plastics products.

PVC COMPOUND

PVC compound product of **US MASTERBATCH** is the combination of PVC resin and other suitable additives, condensed into granules with full technical characteristics required for the final product. Customers only need to use it directly without mixing any additives.

QUALITY CONTROL CERTIFICATES

We pride ourselves in bringing added value to our customers' businesses with the highest quality products, guaranteed by a Quality Control System certified to UNI EN ISO 9001-2015. Products manufactured by US MASTERBATCH are strictly controlled from the selection of input raw materials, quality control throughout the production process, to the stage of finished products being packaged and delivered to customers.

CERTIFICATE OF REGISTRATION

This is to certify that the Quality Management System of

US MASTERBATCH JOINT STOCK COMPANY

HAMLET 2, TIEN XUAN COMMUNE, THACH THAT DISTRICT, HANOI CITY, VIETNAM

has been assessed and registered by MQA UK as conforming to the requirements of

ISO 9001:2015

For the Following Scope

MANUFACTURE OF PLASTIC BEADS PRODUCTS

Authorized Signatory

MQA Certification UK Ltd.

167-169 Great Portland Street, 5th Floor,
London, W1W 5PF, United Kingdom

over 80 countries

WHY CHOOSE US

Economic Advantage: Cut production expenses, minimize inventory, and streamline handling with our cost-efficient masterbatch solutions.

Tailored Perfection: Unlock endless color possibilities and formulations, customized to meet the unique demands of your plastic products.

Flawless Consistency: Achieve seamless and uniform color for every plastic product with our premium Color Masterbatch.

Enhanced Performance: Elevate your products with our Filler Masterbatch, boosting whiteness, hardness, and strength to new levels.

Smart Solutions: Our Engineering Plastic Compound delivers superior technical performance while balancing cost and value effortlessly.
